

## Barbed Wire IOWA

Fencing / Murray Barbed Wire

- Strong and durable - made to the Australian Standard
- Cost-effective, continuous twist style
- Recommended for use in fire danger areas
- Made in Australia

### Popular Iowa Style

Murray Barbed Wire is made at our Albury Manufacturing facility in regional Australia.

- Made from 2.50mm soft/low tensile wire in a continuous length – no joins
- Continuous twist pattern locks the barbs in place limiting movement with stock pressure
- Barb spacing is consistent and close with limited movement
- More fire resistant than high tensile – ideal for fire prone areas
- Softer wire is easier to work with than high tensile

Produced on new machines which are the latest and highest tolerance barbed wire machines available today, the barbs are tightly twisted to prevent them from slipping out of position. All barbed wire is supplied rolled on hardwood timber reels.

Code	Wire(mm)	Tensile Strength	Coil Length(m)	Coil Weight(kg)	Sling Qty	Galv Coating	Rec. Tension Breaking Strain
10150	2.50	Soft	400	45	27	Standard	1.3kn, 3.0kn
10151	2.50	Soft	400	45	27	Heavy	1.3kn, 3.0kn
